

Artificial Intelligence  
Advanced Topics in AI & ML  
Introduction. Course logistics and syllabus

Aleksandr Petiushko

ML Research

# Content

## ① Introduction

# Content

- 1 Introduction
- 2 Course logistics and syllabus

## About the lecturer<sup>1</sup>

- Aleksandr Petiushko, PhD in theoretical CS (2016)
- Lecturer in Lomonosov MSU / MIPT for Machine Learning, Computer Vision, Deep Learning Theory, Python for an ML Researcher since 2019
- Former Huawei Chief Scientist (Scientific Expert), AIRI Director of Key Research Programs (Leading Scientific Researcher), Nuro Head of ML Research, Gatik Head of AI Research

<sup>1</sup>Homepage: <https://petiushko.info/>

# Intro

Time to introduce yourselves: what are your hobbies, motivation in ML, etc.: please go into “**Module 1 Students Introduction**” thread

# Sofia Plagiarism Policy

- It covers parts “*sourced from AI*”
  - ▶ Please read the “**Sofia Plagiarism Policy**” thread
  - ▶ **First offense:** students need to rewrite assignment
  - ▶ **Second offense:** students fail the course
  - ▶ **Third offense:** students re to be withdrawn from their program

# Note about xGPTx

- It can produce very plausible answers in 90% of cases

# Note about xGPTx

- It can produce very plausible answers in 90% of cases
- The caveats are the following:

# Note about xGPTx

- It can produce very plausible answers in 90% of cases
- The caveats are the following:
  - ▶ It can really hallucinate some things which are just untrue

# Note about xGPTx

- It can produce very plausible answers in 90% of cases
- The caveats are the following:
  - ▶ It can really hallucinate some things which are just untrue
  - ▶ It can produce very different information in comparison to the source used to ask question (e.g., book chapter)

## Note about discussions

- Discussion answers like “I agree because of bla-bla-bla” won’t be graded — they do not provide any value

## Note about discussions

- Discussion answers like “I agree because of bla-bla-bla” won’t be graded — they do not provide any value
- Only the answers with some non-trivial arguments that:
  - ▶ either contradict the initial post,
  - ▶ or add some non-obvious missing things to the initial messagewill be considered as graded ones

# Course logistics

- Course grading will be done based on attendance, assignments, discussions, mini research problem, (optional) coding tasks, and the final exam.

# Course logistics

- Course grading will be done based on attendance, assignments, discussions, mini research problem, (optional) coding tasks, and the final exam.
- Contribution:
  - 65%: attendance, assignments, discussions
  - 35%: final exam

# Course logistics

- Course grading will be done based on attendance, assignments, discussions, mini research problem, (optional) coding tasks, and the final exam.
- Contribution:
  - 65%: attendance, assignments, discussions
  - 35%: final exam
- Preliminary grading scale:

Grade	Percent accumulated
A	$\geq 90$ %
B	80-89 %
C	70-79 %

# Note about optional MRP

- MRP = **M**ini **R**esearch **P**roblem

## Note about optional MRP

- MRP = **M**ini **R**esearch **P**roblem
- Topics: all the directions learned through the lectures (but not limited to - just contact your instructor in advance)

## Note about optional MRP

- MRP = **M**ini **R**esearch **P**roblem
- Topics: all the directions learned through the lectures (but not limited to - just contact your instructor in advance)
- MRP to be done in form of a pdf presentation that should be shared via student's github

## Note about optional MRP

- MRP = **M**ini **R**esearch **P**roblem
- Topics: all the directions learned through the lectures (but not limited to - just contact your instructor in advance)
- MRP to be done in form of a pdf presentation that should be shared via student's github
- It should contain:
  - ▶ *tl;dr*: motivation, main idea, and results briefly (1 slide)

## Note about optional MRP

- MRP = **M**ini **R**esearch **P**roblem
- Topics: all the directions learned through the lectures (but not limited to - just contact your instructor in advance)
- MRP to be done in form of a pdf presentation that should be shared via student's github
- It should contain:
  - ▶ *tl;dr*: motivation, main idea, and results briefly (1 slide)
  - ▶ Literature review on the related methods

# Note about optional MRP

- MRP = **M**ini **R**esearch **P**roblem
- Topics: all the directions learned through the lectures (but not limited to - just contact your instructor in advance)
- MRP to be done in form of a pdf presentation that should be shared via student's github
- It should contain:
  - ▶ *tl;dr*: motivation, main idea, and results briefly (1 slide)
  - ▶ Literature review on the related methods
  - ▶ Approach used (with all relevant links used)

# Note about optional MRP

- MRP = **M**ini **R**esearch **P**roblem
- Topics: all the directions learned through the lectures (but not limited to - just contact your instructor in advance)
- MRP to be done in form of a pdf presentation that should be shared via student's github
- It should contain:
  - ▶ *tl;dr*: motivation, main idea, and results briefly (1 slide)
  - ▶ Literature review on the related methods
  - ▶ Approach used (with all relevant links used)
  - ▶ Link to the code used to achieve the goal

# Note about optional MRP

  - ▶ Literature review on the related methods
  - ▶ Approach used (with all relevant links used)
  - ▶ Link to the code used to achieve the goal
  - ▶ Youtube link to the pre-recorded demonstration of the built system
- Presentations to be presented by the author during the last onground session
  - ▶ Duration: apprx 10 min

# Late Submission Policy

Late submission deduction percent: **15% every day**;

# Late Submission Policy

Late submission deduction percent: **15% every day**;

- It means that if you're **7 days late** you'll get **0 score** but need to submit anyway.

# Makeup Policy

Missing onground class:

- Student's grade is dropped by 10%;

# Makeup Policy

Missing onground class:

- Student's grade is dropped by 10%;

Missing Exam:

- A student gets 0 for the Exam;

# Makeup Policy

Missing onground class:

- Student's grade is dropped by 10%;

Missing Exam:

- A student gets 0 for the Exam;

Missing Assignment in time (1 week, please refer to the *Late Submission Policy*):

- No makeups, i.e. 0 for the Assignment;

# Makeup Policy

Missing onground class:

- Student's grade is dropped by 10%;

Missing Exam:

- A student gets 0 for the Exam;

Missing Assignment in time (1 week, please refer to the *Late Submission Policy*):

- No makeups, i.e. 0 for the Assignment;

Unless:

- A Student has a serious medical condition, and this condition is validated by a hospital or licensed California physician (in English)
- The Student contacts in time our chair (Donna Dulo) and Professor and describes the situation and provides all the needed proofs

- Course page: <https://github.com/fatheral/ai-intro-course>
- The professor's lectures are uploaded there

# Takeaway notes

- 1 Please go through all the materials of **Module 0**

# Thank you!
